

ADVANCE YOUR CAREER

SKILLS FOR FUTURE TECHNOLOGY

Achieving IMI TechSafe recognition as part of IMI membership showcases your competence and commitment to learning and development in key, safety-critical automotive technologies, including electric, hybrid, hydrogen, ADAS and connected vehicles.

IMI TechSafe is your path to future-proofing your career and driving your automotive business forward. With achievement of an eligible IMI approved qualification, or accredited product, simply join the IMI membership community and get the recognition you deserve.

Start your IMI membership journey and be at the forefront of safety-critical technologies with IMI TechSafe® recognition

- Ensures you are at the forefront of future-focused automotive technologies
- Showcases your commitment to safety and professionalism within the automotive sector
- Instils confidence in your ability to work safely on new vehicle technology
- Supports compliance with UK and international government regulations and insurance requirements
